Thematic Research Training 2021-2022

Crops and Soil group

Tools of agricultural sciences

13 December 2021, 9:50-16:00

Event description:

Welcome to the first Crops and Soil 2021-2022 meeting! In this event we will learn and examine the tools and technologies that are used to enhance both plant productivity and research! We are going to dive into multiple scenarios and understand which tool is used and why, in addition to being exposed to cutting-edge approaches. Come, join us! You are welcome to add to the discussion, think about your questions on the subject! Let's talk Science! (<https://shorturl.at/mEF37>)

Session Schedule:

Times	Sessions
9:50-10:00	Opening
10:00-10:45	First talk - "Modern tools used in agriculture" - Professor Derek Stewart (The James Hutton Institute)
11:00-11:45	Second talk - "Cutting-edge research in plants " - Professor Attila Molnar (University of Edinburgh)
12:00-13:00	Lunch
13:00-13:45	Third talk - "Modern tools for the study of crops" - Professor Daniel Voytas (University of Minnesota)
14:00-14:45	Fourth talk – "Tools for cutting-edge research in pathogens" – Dr Ana Karla Machado Wood (Syngenta)
15:00-15:45	Discussion
16:00	End

Session organiser: Rafael Monteiro Do Carmo 2473491@dundee.ac.uk; Edmund Astin 2466135@dundee.ac.uk; Bob Mason s1626483@ed.ac.uk.
