

## THEMATIC SESSION 2 – CLIMATE CHANGE & SUSTAINABILITY

---

### LOCATION

G27 Cruickshank Building  
St Machar Drive  
AB24 3UL  
Aberdeen

### SCHEDULE

Time	Activity
10:30 – 10:45	Welcome and Refreshments
10:45 – 11:00	Introduction
11:00 – 12:00	Guest Speaker (TBC)
12:00 – 12:45	Lunch
12:45 – 14:45	Presentations
14:45 – 15:00	Refreshments
15:00 – 16:00	Discussion
16:00 – 16:10	Closing Remarks

### PRESENTATIONS

Please prepare a short (~ 5 minutes) presentation that briefly outlines your research, how it relates to climate change, and how it might contribute towards the sustainable development goals (SDGs) outlined by the UN. Finally, consider how your work can be applied in a wider setting, how might your research be relevant to other fields or across disciplines?

Slides are optional, but please email them to [s.mccorkindale.23@abdn.ac.uk](mailto:s.mccorkindale.23@abdn.ac.uk) beforehand if you plan to show any. There should be time for questions if you'd like, but they're not required.

Our plan is to record the presentations and use them as part of the material we need to produce for the session. If you'd prefer not to be included in the recording, please let us know.

### DISCUSSION

To conclude, we will engage in a discussion around the following questions:

1. As life scientists, we often discuss how we can create a sustainable future, but what are some of the ways we might contribute towards unsustainable practices?
  - a. You might want to consider some of the goals laid out by SDGs ##, ##, and ##
2. How can we make we as global citizens help contribute towards a sustainable future?
