

EastBio PIPS Student Feedback

We hope that you have found your PIPS experience rewarding and in tune with your professional aspirations. Please fill in the form below after the completion of your placement.

We will treat all input as confidential and discuss it with the Training & Development and Industry Engagement Committees should there be areas in the student support that need to be prioritised. We will not share any feedback you provided on your PIPS host unless you request this explicitly and we will consider critical comments or complaints separately. Our approach is to use comments anonymously to form an overall appreciation of our pool of PIPS host and be able to advise on suitability for future internships.

* Required

Placement Details

1. First Name *

2. Last Name *

3. Cohort intake year *

2020

2021

2022

2023
